Course Information

Course Title	Generative AI for Adobe Photoshop (C16)
Course Reference	C16
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	1 day · 7.5 instructional hours per day (7.5 hours)
Daily Timing	9:30 am – 6:30 pm (1-hour lunch; tea breaks within training time)
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Describe how generative AI (Adobe Firefly) works inside Photoshop and navigate the generate–review–refine loop using the Contextual Task Bar and generative layers.
- LO2: Write effective, structured prompts that control subject, style and detail for image generation in Photoshop.
- LO3: Add and remove content non-destructively with Generative Fill and generative layers.
- LO4: Extend an image beyond its original canvas with Generative Expand to re-compose and re-format it.
- LO5: Clean up an image in one click with the AI Remove tool to erase distractions and blemishes.
- LO6: Generate and replace a background to place a subject in a new, coherent scene.
- LO7: Generate images from text using reference images and styles to control the look of a result.
- LO8: Retouch portraits with AI — generative retouching and Neural Filters — naturally and ethically.
- LO9: Combine generative layers with masks and blend modes to composite a polished final image.
- LO10: Build an end-to-end generative design workflow and apply commercial-use and intellectual-property considerations to AI-generated visuals.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.

Course Schedule

Day 1 — Build a complete brand campaign key visual for the Solace Radiance Serum using generative AI in Photoshop — from prompting, Generative Fill, Generative Expand, AI Remove and background replacement to text-to-image, portrait retouching and a masked, blended final composite — and finish with the commercial-use and IP checks that govern real work

Time	Duration	Topic / Activity
9:00–9:20	20 min	Welcome, course introduction, ground rules, and setup: launching Photoshop with the latest generative features, signing in to an Adobe account with Firefly credits, and opening the supplied Solace starter files for the labs
9:20–10:00	40 min	TOPIC 01 — Generative Editing Essentials in Photoshop: introduction to Adobe Firefly and generative AI in Photoshop; writing effective prompts; adding and removing content with Generative Fill; extending images with Generative Expand; one-click cleanup with the AI Remove tool; generating and replacing backgrounds (concepts + live demo)
10:00–10:45	45 min	Hands-on: Lab 1: Get Started with Firefly and Generative AI in Photoshop; Lab 2: Write Effective Prompts for Image Generation
10:45–11:00	15 min	Tea break
11:00–13:00	120 min	Hands-on: Lab 3: Add and Remove Content with Generative Fill; Lab 4: Extend Images with Generative Expand; Lab 5: One-Click Cleanup with the AI Remove Tool
13:00–14:00	60 min	Lunch break
14:00–14:40	40 min	Hands-on: Lab 6: Generate and Replace the Background
14:40–15:10	30 min	TOPIC 02 — Advanced Generative Workflows: text-to-image with reference images and styles; AI-powered portrait retouching and Neural Filters; combining generative layers with masks and blend

		modes; building end-to-end generative design workflows; commercial use and intellectual-property considerations (concepts + live demo)
15:10–16:15	65 min	Hands-on: Lab 7: Text-to-Image Generation with Reference Images and Styles; Lab 8: AI-Powered Portrait Retouching and Neural Filters
16:15–16:30	15 min	Tea break
16:30–17:50	80 min	Hands-on: Lab 9: Combine Generative Layers with Masks and Blend Modes; Lab 10: Build the End-to-End Workflow and Check Commercial Use and IP
17:50–18:00	10 min	Course wrap-up, exporting the campaign key visual, commercial-use and IP recap, responsible use and next steps

Total scheduled time: 480 minutes (8 hours) excluding lunch — of which 450 minutes (7.5 hours) are instructional, plus 30 minutes of tea breaks.

Lab Reference (aligned to course topics)

Topic	Coverage	Labs
Topic 01: Generative Editing Essentials in Photoshop	60%	Lab 1, Lab 2, Lab 3, Lab 4, Lab 5, Lab 6
Topic 02: Advanced Generative Workflows	40%	Lab 7, Lab 8, Lab 9, Lab 10
